

## PC3810

Background Music - Amplifiers

Module to telecontrol the electricity supply to an external sound source. It is activated when a control on the audio system is switched on or locally with the on/off front switch.

### GENERAL FEATURES

- Compact 45x45 series module.
- Mains input and output by rear strip (7.5mm pitch).
- Internal high current relay for mains voltage selection.
- Relay activation by voltage telecontrol signal (lines 4 and 5)
- Front switch for local/remote activation (on/off)
- Connection to line by means of strips with screw connection.
- Protection fuse 3.15 A with officially approved screw plug fuseholder.

### TECHNICAL CHARACTERISTICS

<b>Mains Input:</b>	16 V DC
<b>Maximum Consumption:</b>	30 mA
<b>Dimensions:</b>	45x45x45 mm
<b>Weight:</b>	48 g
<b>Colours:</b>	PC3810-01(White), PC3810-02(Graphite).

### INSTALLATION
