SOUND PROJECTOR - P7770

DESCRIPTION

Acoustic projector, comprised of a white ABS thermoplastic cylinder with stainless steel fittings and silicone double cone speaker 8 cm. - 8 Ohm. 5W RMS rated power speaker and 10 W maximum power.

CONNECTION

TERMINALS:

Grey wire - Input +
Black wire - Input -

TECHNICAL CHARACTERISTICS

Unidirectional type without transformer, and movable support include.
Nominal maximum power: 5/10 W - impedance 8 Ohm
Sensitivity: 90 dB
Maximum sound pressure: 100 dB

Dimensions : Ø 90 x 120 mm.
Weight : 550 gr.
